

MAGICARP MOTORS

We're a San Francisco based team of friends turning beater cars into race cars, and engineering camaraderie into something worth watching.

Earlier this year, we bought a \$1,000 broken down Honda Accord. Now we're racing it, wrapped as a "Gearados", at the 24 Hours of Lemons, monitoring it through a homemade Claude Code telemetry rig while a teammate DJs and another teaches newcomers to drive stick on a sim we hauled from home. Along the way, we've already taken home Judge's Choice and Most Heroic Fix awards.

Most race teams have sponsors. So far, we've done it all out of pocket, and we're ready to bring partners along for what comes next.

WHY SPONSOR MAGICARP MOTORS

- **Engineering Talent Pipeline**

Our team and network includes engineers from Google, Meta, Nvidia, Apple, SpaceX, Replit, Neuralink, and Physical Intelligence. Bespoke recruiting and warm intros for serious sponsors.
- **Audience That Shows Up**

100+ spectators at our last race. 8+ events in 2026 including Open Sauce (July), Button Turrible (Sept), and Arse-Freeze-Apalooza at Sonoma (Dec). Coffeeshop showcases and community days throughout the year.
- **Memorable Hospitality**

Skyline Boulevard ride-alongs, paddock access at races, and engineering-night co-hosts. Take a recruit or client to a Lemons race. Better than a luxury box, infinitely more memorable.
- **Real Surfaces, Real Eyeballs**

Logos on the car, on 100+ team jackets already in the wild, on upcoming jerseys, on race livestreams, and at every community event we attend. Real visibility, not just impressions on a deck.

SPONSORSHIP TIERS (annually reoccurring)

FAN \$500 Sticker on car	BRONZE \$1,500 8" logo on car	SILVER \$2,500 jackets & pit pass	GOLD \$5,000 ride-alongs & reports	PLATINUM \$15,000 bespoke recruiting	FOUNDING \$25,000 Category exclusive
